This is the last week to **update** your listings. We will make any violating listing product unavailable until the names are appropriate if the products do not fit the listing policy.

There will also be a limit on the number of same item postings, (two postings for the same product) , see examples below.

The ability to add new product categories and subcategories has been disabled. If you feel another category or subcategory needs to be added please email the Co-op with the request.

Cottage industry **growers**, please add your list of ingredients as well as have those labeled on the product when delivered.

All produce/products should be clearly labeled when delivered to the Co-op.

Going forward the format for listing products will be as follows.
